

**Dra. Idania Valdez Vazquez**, Investigador Titular B  
Unidad Académica Juriquilla, Instituto de Ingeniería, UNAM  
[IValdezV@ii.unam.mx](mailto:IValdezV@ii.unam.mx)

**Especialidad:**

Biorrefinerías celulósicas; Bioconversión de CO<sub>2</sub>; Bioprospección microbiana

**Sinopsis curricular**

Es Ingeniero Ambiental egresado de la Unidad Profesional Interdisciplinaria de Biotecnología del IPN. Realizó sus estudios de Doctorado en Biotecnología Ambiental en CINVESTAV, obteniendo el grado en 2007. Actualmente es Investigador Titular B de tiempo completo de la Unidad Académica Juriquilla del Instituto de Ingeniería de la UNAM. Sus líneas de investigación contemplan: la revalorización de residuos agrícolas y agroindustriales y aguas residuales para la obtención de bioenergía; el desarrollo de biorrefinerías celulósicas; bioconversión de CO<sub>2</sub>; la bioprospección microbiana; el estudio ecológico de las comunidades microbianas presentes en biorreactores anaerobios; el estudio de la sostenibilidad de sistemas de producción de bioenergía.

Es Investigador Nacional nivel 2. Cuenta con más de 40 publicaciones internacionales indizadas con 1,500 citas acumuladas (índice h 15). Ha dirigido 11 estudiantes de licenciatura y 18 estudiantes de posgrado. Cuenta con más de 100 trabajos en eventos académicos.
